Dana,

Attached is the most up-to-date version of the imidacloprid PID outside of SharePoint for your review. It includes all team comments and points out a few issues that still need to be resolved in some way. If it's alright with you, I will send this to the OGC neonic team without any comments attached.

In response to your comments below, I can definitely work on those, though it might be good if Matt and Marianne work on Deliberative Process/Ex. 5

Steven, since time is getting pretty tight, I started looking at the imi PID to get a broad sense of how things are shaping up, and any particular areas that I can help focus you in on prior to it being finalized for my review. I'm only through the HH section, and will send more as I get further along (hopefully tomorrow).
